

Technical drawing of a circular object, likely a cross-section of a pipe or a similar cylindrical component. The drawing features three concentric circles centered at the origin of a coordinate system defined by a horizontal and vertical centerline. The centerline is represented by a dash-dot line. The outermost circle is labeled with a dimension of 10, indicating its radius. The middle circle is labeled with a dimension of 1, indicating its radius. The innermost circle is labeled with a dimension of 1, indicating its radius. The drawing is oriented with the centerline horizontal, and the object is shown in a perspective view.
